Unfortunately we cannot edit your profile for you, but it is quite easy to do yourself!

To edit your profile, login to your your account and click on the Profile tab (second tab at the far left) at the top of your dashboard (direct link below). Then simply make the changes you want and be sure to click the blue "Save Profile & Publish" button at the bottom right of the page so your changes take effect:

Even when your account is suspended, you always have access to your profile and Ads to make edits/changes..
