Does Slixia allow agency accounts?

Kirsty - 2020-07-29 - Account

Agency accounts are not allowed on Slixia.

Slixia accepts independent advertisers only! Independent advertisers must have their own contact details, and can not have the same contact info of another Slixia advertiser.

Advertisers must have their own non-agency related email address and phone number.

Advertisers are not allowed to link to any agency-style website but are allowed to link to a personal website.
