How do I get BDSM verified?

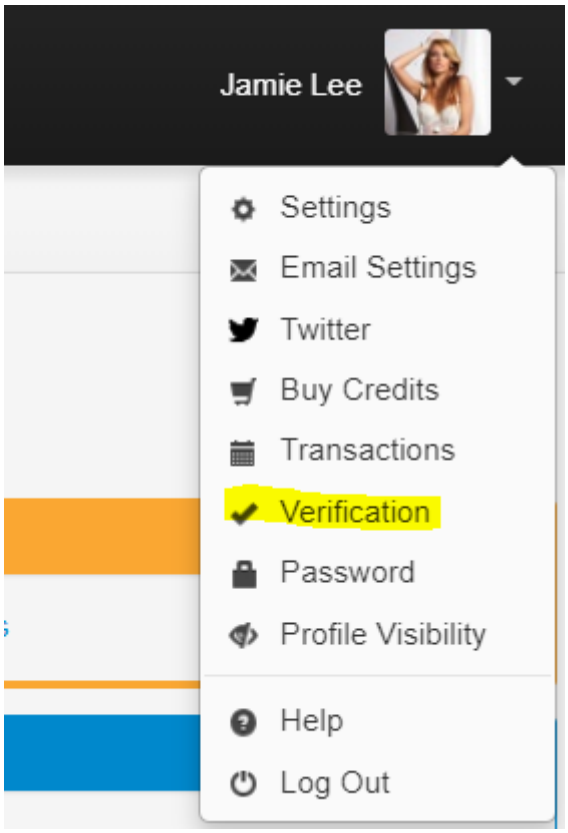

Ria - 2020-07-29 - Tantra/BDSM Verification

You can start your BDSM verification here,:

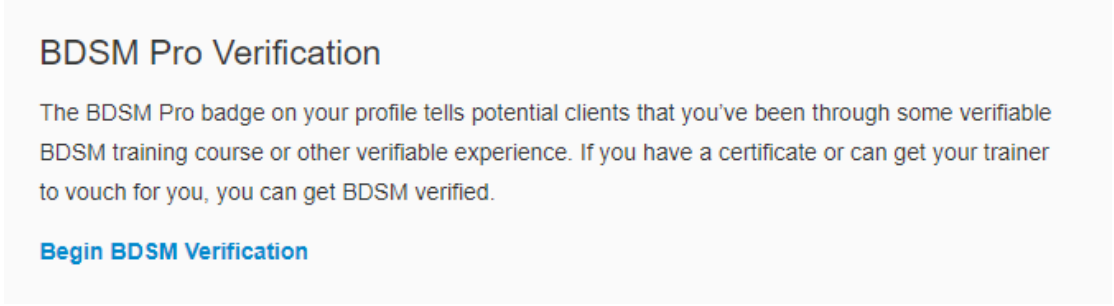

https://e.slixa.com/account/verify/bdsm

Or you can access your Slixa account and click on your stage name on the top right.

Select the **Verification** tab:

Scroll down until you fins the BDSM section and click on "Begin BDSM verification"

Here are the things we look for. We don't need everything, but the more the better, so we can get you

verified quickly.

- References to BDSM services in your Slixa profile.

- References to BDSM services on your personal website.

- An online history of BDSM ads on other provider sites.

- Active participation in online BDSM forums or are active in the BDSM online community.

- Qualified references from educators, trainers, or established members of the BDSM community.

- If you've attended BDSM training courses, we can try to verify it based on these. Please note we are not here to verify training or skills, we simply use this as evidence of community involvement.

- If you know other Slixa entertainers with the BDSM Professional designation who will vouch for the professional BDSM services you offer.
