How often do I have to photo verify?

Ria - 2020-07-29 - Photo Verification

Slixa needs your photo verification image to be a recent picture of you showing you the way you are today. If the last time you sent a photo verification picture was more than 1-2 years ago, we would need a more recent image.

We also suggest that anytime you add new photos to your profile, you contact us at help@slixa.com so we can verify them.
