

What are the limitations of a Slixia listing?

Donia - 2020-08-13 - Ads

In an effort to focus more traffic and resources on our paying advertisers, we have rolled out [significant restrictions and limitations on accounts with free listings only](#).

We have taken [numerous steps to make buying an ad accessible and have announced a number of cost saving measures](#) to meet the demand in this new environment. Our Basic ad cost still remains low at only \$1.00-\$3.00 a day, and with the [included bonuses](#) any purchase of \$100 or more is reduced by 10%-20%.

Also, we have launched new FREE features to help you get the most out of our traffic (must have a paid ad to qualify):

- **Gift Me:** Let Slixia viewers show you their appreciation with WishList links displayed on your profile
- **Distance Dating upgrade:** Let Slixia viewers know what virtual services you offer

Slixia Listings are no longer a courtesy we provide as they are being phased out over the coming months. For the short time they are still present, they will have significant limitations for the account holder vs those with a paid ad.

Those limitations include:

- Your website link(s) will not appear on your profiles
- Your [Gift Me](#) area will not appear on your profile
- Your [Distance Dating](#) upgrade will not appear on your profile
- Your profile will include ads from paying members and 3rd party pops
- You will not be able to access stats in your dashboard
- You will not be included in the digest that is sent to over 30k+ subscribed viewers
- You will no longer receive emails regarding your stats
- You will not be able to [photo verify](#)
- If you have previously been photo verified the photo verification badge will not appear on your profile
- You will not be able to update your location
- Listings do not appear in category searches of any kind

To access [all of Slixia's amazing features](#), we recommend [purchasing an ad now!](#)
