What is “Available Now”

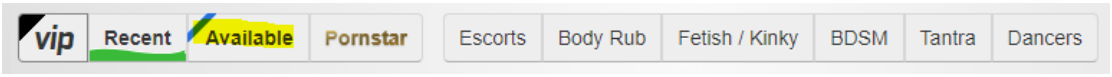

Ria - 2020-07-30 - Features

Getting more exposure with your Slixa ad is easy with the **"Available Now"** feature.

This feature lets you tell users when you're available for booking on short notice (within a few hours). This feature can be turned on in two hour increments from your Dashboard page.

Once you've set your status as "available now", a blue "available now" sash will appear on your thumbnail, and you will be included in the popular "available now" category . We believe this can be a great marketing tool to pick up additional bookings when you are available but don't have anything scheduled.

☝ We have a limit on the number of hours an entertainer can be "available" in a 24 hour period. The limit is 12 hours in any 24 hour period.
