

What is photo verification?

Ria - 2020-07-29 - Photo Verification

Slixia Photo Verification is fast and easy and lets potential clients know that the photos displayed in your profile are an accurate representation of your true appearance.

You'll get a Slixia verified badge on your photos letting users that you've been verified by Slixia staff.

Please be aware that Photo Verification does not verify your identity; but rather your appearance.

For instructions on getting your photos verified, login to your account and visit the "Verification" page within the "Settings" area of your account:

The screenshot shows the Slixia user dashboard. At the top, there is a navigation bar with icons for Dashboard, Profile, Ads, Stats, Media, and Help. On the right side of the navigation bar, it displays '1,000 credits remaining' and '34 days remaining', along with a 'Buy Credits' button and the user's name 'Jamie Lee'. Below the navigation bar, there is a location indicator 'Currently in New York City, New York' and a 'Set Available Now' button. The main content area starts with a 'Welcome back!' message and a notification: 'Your email address is incorrect'. Below this, a message states: 'Your email address on file (admin@slixia.com) is not accepting mail - please click here to update your address'. A blue banner at the bottom of the dashboard reads: 'Access your Slixia account from your mobile device! The Slixia Advertiser Portal now works on your phone and your tablet, as well as your laptop! Update your profile, manage your ads, and purchase credits by visiting https://e.slixia.com/ from your mobile device.' On the right side, a dropdown menu is open, showing options: Settings, Email Settings, Twitter, Buy Credits, Transactions, Verification (highlighted in yellow), Password, Profile Visibility, Help, and Log Out.
