

What is photo verification?

Ria - 2020-07-29 - Photo Verification

Slixia Photo Verification is fast and easy and lets potential clients know that the photos displayed in your profile are an accurate representation of your true appearance.

You'll get a Slixia verified badge on your photos letting users that you've been verified by Slixia staff.

Please be aware that Photo Verification does not verify your identity; but rather your appearance.

For instructions on getting your photos verified, login to your account and visit the "Verification" page within the "Settings" area of your account:
