Bear in mind that we might request Age Verification for new accounts.

WHAT DO I DO IF SLIXA REQUESTS AGE VERIFICATION?

- Slixa reserves the right to request age verification materials from any advertiser who appears to be 25 years of age or younger. Our policy is to require photo identification whenever an advertisers's age is brought into question. Verification requires the presentation of a clear color copy of a government issued photo ID. Submitted IDs must be current, valid forms of legal identification supplied by a government office such as a driver's license or passport. The ID must be valid when you submit it (not past the displayed expiration date) and the entire identification card (or identification page, if submitting a passport) must be clearly visible and not modified or obscured in any way.
- Age verification documents must be issued by one of the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Iceland, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, South Africa, Spain, Sweden, Switzerland, UK, or USA
- IDs from other countries cannot be accepted at this time and will not be approved for an account.
- Please scan a copy of your ID in color or take a digital color photo and upload it to our secure verification page.
- Slixa takes the responsibility of handling your personal identification very seriously. The files you upload on the following link are immediately encrypted and securely stored off-site. Slixa's secure verification page is the only safe way to submit your personal identification to Slixa. Please do NOT send it to us via email.
