What do I need to do to get age verified?

Ria - 2020-07-29 - Age Verification

In order to age verify your account, we need to be sure the identification you upload is valid, and belongs to the same person who appears in your profile photos.

Age verification documents must be issued by one of the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Iceland, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, South Africa, Spain, Sweden, Switzerland, UK, or USA

IDs from other countries cannot be accepted at this time and will not be approved for an account.

If you show your face in your profile photos we need the following:

- A clear color copy of a government issued photo ID
- An image of you holding your ID next to your face

The most common forms of government issued IDs are drivers licenses and passports. The ID must be valid when you submit it (not past the displayed expiration date) and the entire identification card (or identification page, if submitting a passport) must be clearly visible and not modified or obscured in any way. Please ensure the photo of your ID and the photo of you holding your ID is clear, legible, and not blurry due to focus or lighting issues.

If you hide your face in your profile photos we need the following:

- A clear color copy of a government issued photo ID
- An image of you holding your ID next to your face
- An un-cropped and/or un-blurred photo from your profile so we can clearly see your face

We must be able to confidently conclude that the person pictured in the ID is the same as the person holding the ID, and that the person holding the ID is the same person pictured on your profile page.
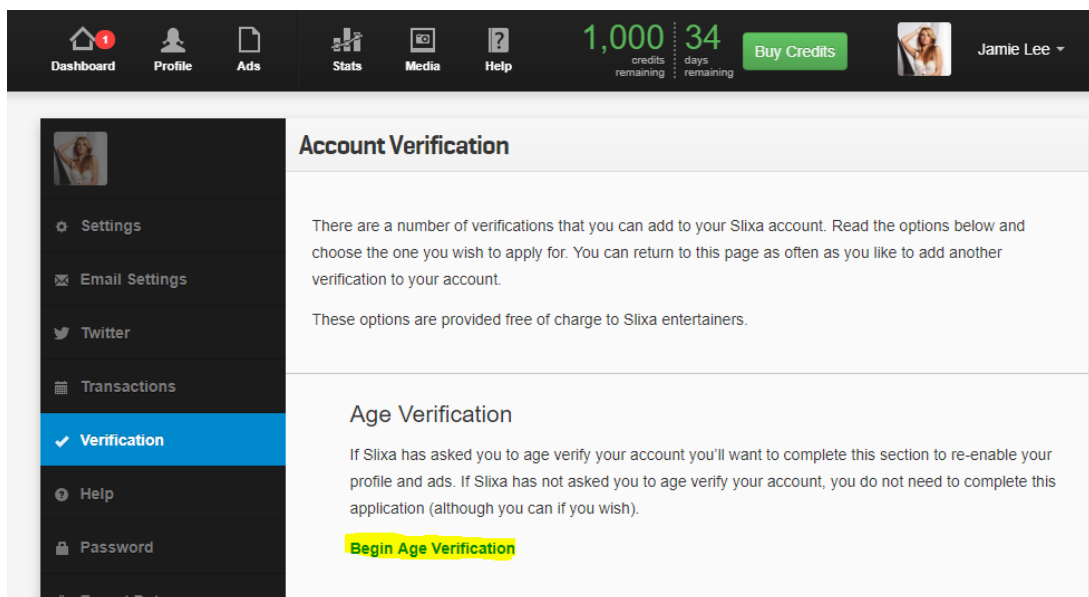

Tips:

- Make sure there's enough light in the room when you the photo is taken. Dark photos will blur or obscure your ID. Open the curtains or turn on all the lights.
- If using a phone, use the back camera instead of the front. The back camera is usually much better quality.
- If you look substantially different when you dress up for your photos than you do on

an average day, make sure you take your verification photos when dressed up.

After making sure you have all of the elements ready, simply access your Slixa's account, click on your avatar and select the **Verification** tab:

Inside the **Verification** tab, select "**Begin Age Verification**" and follow the instructions:
